THE BIRDS OF FLAMBOROUGH HEADLAND

A Checklist

Compiled by Rob Little

Revised: January 2026

© Flamborough Bird Observatory Trust Ltd.

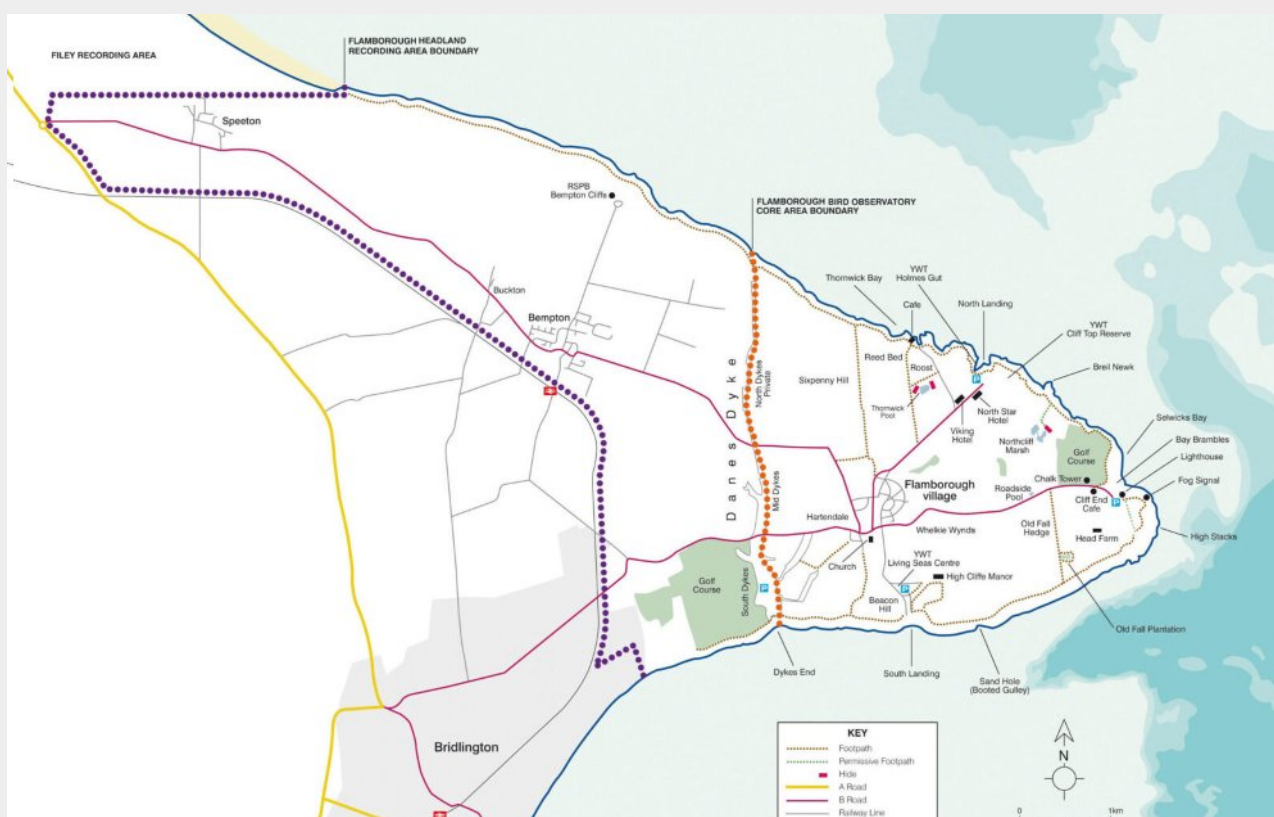

Cover: Eastern Crowned Warbler (Craig Thomas)

Introduction

The geographical position of Flamborough Head as a great white cape whose chalk cliffs project six miles out into the North Sea from the general line of the Yorkshire coast places it in an ideal spot to provide some of the best birdwatching experiences anywhere in Britain. The principal ornithological attractions of the area are the cliffs on the north side of the headland holding the largest colony of breeding seabirds in the mainland Britain, one of the country's premier the sea-watching sites, and probably

the best in the North Sea The Head also enjoys an impeccable pedigree in regularly attracting rare and scarce migrant birds.

This checklist is an attempt to formalise an authoritative list of birds that have been seen and recorded on the Flamborough Headland. It embraces records from Speeton, Buckton, Bampton, Sewerby and other areas between to the west of Danes Dyke in addition to Flamborough Bird Observatory's core recording area to the east of the Dyke.

Compiling this list has involved reviewing all historical reports from the Flamborough Ornithological Group, Flamborough Bird Observatory, the Yorkshire Naturalists Union (YNU) and the British Birds Rarities Committee (BBRC). Due to the scale of this task, there will inevitably be some errors or omissions. If you discover anything in need of correction please email details to fborecords@hotmail.com so that these are

considered for inclusion in a future edition of the list.

Only records that are regarded as certain and have undergone a formal review process are included in the confirmed list. Where appropriate, all rare species included in the confirmed list have been reviewed and assessed by the YNU and/or BBRC and found to be 'accepted'. In the case of firsts for Britain they must have been admitted to the British List by the British Ornithologists

Union (BOU). Historical claims, probables and possibles have therefore been excluded. As a result, the confirmed checklist is fully aligned with the national record for BBRC taxa and there has been no further attempt to review any historical records.

There are a number of exceptional published historical claims that have either not been submitted to the appropriate bodies for assessment or do not appear in their record

This document will be updated periodically to reflect new species seen on the headland or taxonomic changes in the British List. Amended requirements for supporting evidence or changed local status will also be included.

Supporting Evidence for Records

All records of species that have 'BB Rarity' or 'Yorkshire Rarity' included in their status require a description, photo or other supporting evidence to be submitted for assessment by the relevant rarities committees at a Yorkshire or national level before being added to the historical record in published reports and statistics. archives. While it is regrettable that these records have been omitted, there is a need for an established standard for admission to the list. In future, it is intended that all future additions will have followed the prescribed formal procedure. Of course, the door is always open for records that have not previously been considered by the relevant authority and assessed in the normal way.

Species Requiring supporting evidence by the British Birds Rarities Committee

If you need to report a British Birds rarity, please complete a description form downloadable from the BBRC website (www.britishbirds.co.uk/rarities-committee/records/submit-a-sighting) and send it to the BBRC Secretary at secretary@bbrc.org.uk.

Species Requiring supporting evidence by the Yorkshire Naturalists Union Rarities Committee

If you need to report a Yorkshire rarity, please complete a description form downloadable from the YNU website (www.ynu.org.uk/recording-sections/sections/birds/how-to-record-rare-birds) and send it to the YNU Rarities Committee Secretary at ynurcdescriptions@outlook.com.

Submitting supporting evidence

The work of the rarities committees can be aided if observers submit descriptions, photos or sound recordings as soon as possible.

Descriptions: details should include the description taken in the field, before reference to books; the locality; date and time; habitat; weather conditions; optical aids used; distance from the bird; period of observation; species present for comparison and previous experience of the species. If anyone disagrees with the identification should also be noted.

Photographs: the electronic submission of photographs is welcomed, with the provisions stated in the previous paragraph about names, location and dates. The image format should be JPG.

Sound Recordings including 'Nocmig': any sound recordings which accompany a description are requested to include as many examples of call/song as possible/realistic. If any post processing has been applied, then please state this in your description (high pass filter etc.) but try not to edit calls too much or remove sounds between phrases. Sonograms accompanying an MP3 or WAV format would be ideal.

Submission of all descriptions are usually acknowledged and the decisions on each published either on the BBRC or YNU Birds website and in their respective reports

If a record has been deemed 'not proven', it doesn't necessarily mean that the bird has

been misidentified, but rather that it has not been sufficiently well documented to allow for a conclusive acceptance.

Subspecies and other unusual occurrences

Supporting evidence is also required for difficult to determine subspecies, particularly those whose taxonomic status is under review. Many of these are now considered by BBRC. A full list of species and subspecies considered by BBRC can be found here: www.bbrc.org.uk/main-information/species-taxa.

Notes on the Systematic List

The following points show the basis on which the list has been compiled:

- The taxonomy, sequence of species and nomenclature follows the BOU British List. The BOU have indicated their intention to adopt the AviList global checklist as its basis for the British List from the next BOURC Report. Those taxonomic changes will be reflected below.
- The details included for each species are English name, scientific name, status at Flamborough including breeding in addition to any requirement for assessment by BBRC or YNURC.
- Records for a number of hard-to-identify species are sometimes published as belonging to a 'species pair' or 'species group', while some subspecies are also treated in a similar way.
- The abundance categories used in this list are:
 - Abundant:** Easily encountered every day in season.
 - Common:** Encountered most days in the right habitat in season.
 - Regular:** annual although usually encountered sporadically in season. May only be seen on a few days each year or in very small numbers.
 - Scarce:** normally annual though typically five or fewer records per year.
 - Rare:** not annual and fewer than twenty records over previous ten years
 - Vagrant:** fewer than five records over previous ten years.
- Breeding status is described for all species that either currently breed or have done so in the past. The descriptions are self-explanatory.

The Systematic List

Taxonomic Changes

The Flamborough Headland List follows the BOU British List in relation to taxonomy. The BOU's British list has previously followed the IOC taxonomy and has now transferred to the new AviList. The first version of AviList has numerous splits and lumps that have impacted the Flamborough Headland List. Future revisions are planned to be released once a year thereafter. The most significant changes are listed below:

- Fea's Petrel renamed to Cape Verde Petrel;
- Yelkouan and Balearic Shearwaters lumped as Mediterranean Shearwater;
- Eurasian and Green-winged Teal lumped as Green-winged Teal;
- Genus of Little Ringed Plover changed from *Charadrius* to *Thinornis*;
- Carrion and Hooded Crow lumped as Carrion Crow;
- Siberian and Amur Stonechat lumped as Siberian Stonechat

The result of these changes has been that the Flamborough Headland List is reduced by two (Green-winged Teal and Hooded Crow).

FBO will continue to accept records of all well documented subspecies, including those identified as lumped above.

The Species Total

The confirmed tally currently stands at **363** species. In addition, due to the challenges associated with field identification, one species group, Zino's / Cape Verde / Desertas Petrel (group), has been recorded without any sighting being identified and accepted to species level. This species group is included in the list and highlighted in grey below. Potentially new species that are still waiting on a determination from BBRC are listed in the 'Pending Consideration' section.

The Confirmed List

English name	Scientific name	Flamborough Headland & National Status
1 Ruddy Duck	<i>Oxyura jamaicensis</i>	Extremely rare.
2 Mute Swan	<i>Cygnus olor</i>	Regular passage migrant. Isolated breeding records in the last 50 years.
3 Bewick's Swan	<i>Cygnus columbianus</i>	Extremely rare.
4 Whooper Swan	<i>Cygnus cygnus</i>	Regular passage migrant.
5 Brent Goose	<i>Branta bernicla</i>	Regular passage migrant.
6 Canada Goose	<i>Branta canadensis</i>	Common resident and passage migrant. Breeds every year in small numbers.
7 Barnacle Goose	<i>Branta leucopsis</i>	Regular passage migrant.
8 Snow Goose	<i>Anser caerulescens</i>	Extremely rare. Former national rarity, not considered by BBRC since 1963.

English name	Scientific name	Flamborough Headland & National Status
9 Greylag Goose	<i>Anser anser</i>	Common resident and passage migrant. Breeds every year in small numbers.
10 White-fronted Goose	<i>Anser albifrons</i>	Locally rare passage migrant.
11 Tundra Bean Goose	<i>Anser serrirostris</i>	Locally rare passage migrant.
12 Pink-footed Goose	<i>Anser brachyrhynchus</i>	Common passage migrant and winter visitor.
13 Taiga Bean Goose	<i>Anser fabalis</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC.
14 Mandarin Duck	<i>Aix galericulata</i>	Locally rare visitor.
15 Egyptian Goose	<i>Alopochen aegyptiaca</i>	Locally rare.
16 Shelduck	<i>Tadorna tadorna</i>	Regular passage migrant.
17 Long-tailed Duck	<i>Clangula hyemalis</i>	Regular passage migrant and winter visitor.
18 King Eider	<i>Somateria spectabilis</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
19 Eider	<i>Somateria mollissima</i>	Regular passage migrant and winter visitor.
20 Common Scoter	<i>Melanitta nigra</i>	Common passage migrant and winter visitor.
21 Surf Scoter	<i>Melanitta perspicillata</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1991.
22 Velvet Scoter	<i>Melanitta fusca</i>	Regular passage migrant and winter visitor.
23 Goldeneye	<i>Bucephala clangula</i>	Regular passage migrant.
24 Smew	<i>Mergellus albellus</i>	Extremely rare.
25 Red-breasted Merganser	<i>Mergus serrator</i>	Regular passage migrant.
26 Goosander	<i>Mergus merganser</i>	Regular passage migrant.
27 Red-crested Pochard	<i>Netta rufina</i>	Extremely rare. Former national rarity, not considered by BBRC since 1963.
28 Pochard	<i>Aythya ferina</i>	Locally scarce visitor.
29 Tufted Duck	<i>Aythya fuligula</i>	Regular passage migrant. Isolated breeding records in the last 50 years.
30 Scaup	<i>Aythya marila</i>	Locally scarce visitor.
31 Baikal Teal	<i>Sibirionetta formosa</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
32 Garganey	<i>Spatula querquedula</i>	Locally scarce passage migrant.
33 Shoveler	<i>Spatula clypeata</i>	Regular passage migrant.
34 Gadwall	<i>Mareca strepera</i>	Regular passage migrant.
35 Wigeon	<i>Mareca penelope</i>	Common passage migrant and winter visitor.
36 American Wigeon	<i>Mareca americana</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2002.
37 Mallard	<i>Anas platyrhynchos</i>	Common resident. Breeds every year in small numbers.

English name	Scientific name	Flamborough Headland & National Status
38 Pintail	<i>Anas acuta</i>	Regular passage migrant.
39 Teal	<i>Anas crecca</i>	Common passage migrant and winter visitor.
40 Red Grouse	<i>Lagopus scotica</i>	Extremely rare.
41 Grey Partridge	<i>Perdix perdix</i>	Regular resident. Breeds every year in small numbers.
42 Pheasant	<i>Phasianus colchicus</i>	Abundant resident. Breeds every year in moderate numbers.
43 Quail	<i>Coturnix coturnix</i>	Locally rare visitor.
44 Red-legged Partridge	<i>Alectoris rufa</i>	Regular resident. Breeds every year in small numbers.
45 Little Grebe	<i>Tachybaptus ruficollis</i>	Regular passage migrant. Isolated breeding records in the last 50 years.
46 Slavonian Grebe	<i>Podiceps auritus</i>	Locally rare visitor.
47 Red-necked Grebe	<i>Podiceps grisegena</i>	Locally scarce passage migrant.
48 Great Crested Grebe	<i>Podiceps cristatus</i>	Regular passage migrant and winter visitor.
49 Black-necked Grebe	<i>Podiceps nigricollis</i>	Locally rare visitor.
50 Little Bustard	<i>Tetrax tetrax</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
51 Cuckoo	<i>Cuculus canorus</i>	Regular passage migrant.
52 Pallas's Sandgrouse	<i>Syrhaptes paradoxus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
53 Oriental Turtle Dove	<i>Streptopelia orientalis</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
54 Turtle Dove	<i>Streptopelia turtur</i>	Locally rare passage migrant.
55 Collared Dove	<i>Streptopelia decaocto</i>	Common resident. Breeds every year in moderate numbers. Former national rarity, not considered by BBRC since 1950.
56 Woodpigeon	<i>Columba palumbus</i>	Abundant resident and passage migrant. Breeds every year in large numbers.
57 Rock Dove	<i>Columba livia</i>	Abundant resident. Breeds every year in large numbers.
58 Stock Dove	<i>Columba oenas</i>	Common resident. Breeds every year in moderate numbers.
59 Common Crane	<i>Grus grus</i>	Locally scarce visitor. Former national rarity, not considered by BBRC since 1988.
60 Water Rail	<i>Rallus aquaticus</i>	Regular passage migrant and winter visitor.
61 Corncrake	<i>Crex crex</i>	Extremely rare.
62 Spotted Crake	<i>Porzana porzana</i>	Rare. Nationally scarce, BB scarce migrant.
63 Moorhen	<i>Gallinula chloropus</i>	Common resident. Breeds every year in moderate numbers.
64 Coot	<i>Fulica atra</i>	Common resident. Breeds every year in small numbers.
65 Stone-curlew	<i>Burhinus oedicnemus</i>	Extremely rare.

English name	Scientific name	Flamborough Headland & National Status
66 Avocet	<i>Recurvirostra avosetta</i>	Locally rare visitor.
67 Black-winged Stilt	<i>Himantopus himantopus</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2017.
68 Oystercatcher	<i>Haematopus ostralegus</i>	Common passage migrant and winter visitor. Breeds every year in small numbers.
69 Grey Plover	<i>Pluvialis squatarola</i>	Regular passage migrant.
70 Golden Plover	<i>Pluvialis apricaria</i>	Regular passage migrant.
71 American Golden Plover	<i>Pluvialis dominica</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2006.
72 Dotterel	<i>Eudromias morinellus</i>	Locally scarce passage migrant.
73 Ringed Plover	<i>Charadrius hiaticula</i>	Regular passage migrant and winter visitor.
74 Little Ringed Plover	<i>Thinornis dubius</i>	Regular passage migrant and summer visitor. Breeds sporadically, not every year.
75 Lapwing	<i>Vanellus vanellus</i>	Regular passage migrant and winter visitor. Breeds every year in small numbers.
76 Kentish Plover	<i>Anarhynchus alexandrinus</i>	Extremely rare. National rarity, supporting evidence required by BBRC; not considered by BBRC 1963-2019.
77 Whimbrel	<i>Numenius phaeopus</i>	Regular passage migrant.
78 Curlew	<i>Numenius arquata</i>	Common passage migrant and winter visitor.
79 Bar-tailed Godwit	<i>Limosa lapponica</i>	Regular passage migrant.
80 Black-tailed Godwit	<i>Limosa limosa</i>	Regular passage migrant.
81 Jack Snipe	<i>Lymnocyptes minimus</i>	Regular passage migrant.
82 Woodcock	<i>Scolopax rusticola</i>	Regular passage migrant.
83 Great Snipe	<i>Gallinago media</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
84 Snipe	<i>Gallinago gallinago</i>	Common passage migrant and winter visitor.
85 Common Sandpiper	<i>Actitis hypoleucos</i>	Regular passage migrant.
86 Grey Phalarope	<i>Phalaropus fulicarius</i>	Rare visitor. Nationally scarce, BB scarce migrant.
87 Red-necked Phalarope	<i>Phalaropus lobatus</i>	Rare visitor. Nationally scarce, BB scarce migrant.
88 Green Sandpiper	<i>Tringa ochropus</i>	Regular passage migrant.
89 Wood Sandpiper	<i>Tringa glareola</i>	Regular passage migrant.
90 Redshank	<i>Tringa totanus</i>	Common passage migrant and winter visitor.
91 Lesser Yellowlegs	<i>Tringa flavipes</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2019.
92 Spotted Redshank	<i>Tringa erythropus</i>	Locally rare passage migrant.
93 Greenshank	<i>Tringa nebularia</i>	Regular passage migrant.

English name	Scientific name	Flamborough Headland & National Status
94 Turnstone	<i>Arenaria interpres</i>	Common passage migrant and winter visitor.
95 Knot	<i>Calidris canutus</i>	Regular passage migrant.
96 Ruff	<i>Calidris pugnax</i>	Regular passage migrant.
97 Curlew Sandpiper	<i>Calidris ferruginea</i>	Locally rare visitor.
98 Stilt Sandpiper	<i>Calidris himantopus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
99 Temminck's Stint	<i>Calidris temminckii</i>	Rare visitor. Nationally scarce, BB scarce migrant.
100 Buff-breasted Sandpiper	<i>Calidris subruficollis</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1983.
101 Sanderling	<i>Calidris alba</i>	Common passage migrant and winter visitor.
102 Dunlin	<i>Calidris alpina</i>	Common passage migrant.
103 Purple Sandpiper	<i>Calidris maritima</i>	Regular passage migrant and winter visitor.
104 Baird's Sandpiper	<i>Calidris bairdii</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
105 Pectoral Sandpiper	<i>Calidris melanotos</i>	Extremely rare. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1963.
106 Little Stint	<i>Calidris minuta</i>	Locally rare visitor.
107 Arctic Skua	<i>Stercorarius parasiticus</i>	Common passage migrant.
108 Long-tailed Skua	<i>Stercorarius longicaudus</i>	Regular passage migrant. Former national rarity, not considered by BBRC since 1980.
109 Pomarine Skua	<i>Stercorarius pomarinus</i>	Regular passage migrant.
110 Great Skua	<i>Stercorarius skua</i>	Common passage migrant.
111 Puffin	<i>Fratercula arctica</i>	Common resident and summer visitor. Breeds every year in large numbers.
112 Black Guillemot	<i>Cephus grylle</i>	Locally rare visitor. Has bred in the past but has not done so for many years.
113 Razorbill	<i>Alca torda</i>	Abundant resident and summer visitor. Breeds every year in large numbers.
114 Little Auk	<i>Alle alle</i>	Locally scarce passage migrant.
115 Common Guillemot	<i>Uria aalge</i>	Abundant resident and summer visitor. Breeds every year in large numbers.
116 Sooty Tern	<i>Onychoprion fuscatus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
117 Bridled Tern	<i>Onychoprion anaethetus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
118 Little Tern	<i>Sternula albifrons</i>	Locally rare passage migrant.
119 Caspian Tern	<i>Hydroprogne caspia</i>	Extremely rare. National rarity, supporting evidence required by BBRC.

English name	Scientific name	Flamborough Headland & National Status
120 Gull-billed Tern	<i>Gelochelidon nilotica</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
121 Whiskered Tern	<i>Chlidonias hybrida</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
122 White-winged Black Tern	<i>Chlidonias leucopterus</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2006.
123 Black Tern	<i>Chlidonias niger</i>	Locally rare passage migrant.
124 Sandwich Tern	<i>Thalasseus sandvicensis</i>	Common passage migrant.
125 Lesser Crested Tern	<i>Thalasseus bengalensis</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
126 Arctic Tern	<i>Sterna paradisaea</i>	Common passage migrant.
127 Common Tern	<i>Sterna hirundo</i>	Common passage migrant.
128 Roseate Tern	<i>Sterna dougallii</i>	Locally rare passage migrant.
129 Little Gull	<i>Hydrocoloeus minutus</i>	Common passage migrant.
130 Ross's Gull	<i>Rhodostethia rosea</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
131 Kittiwake	<i>Rissa tridactyla</i>	Abundant resident and summer visitor. Breeds every year in large numbers.
132 Sabine's Gull	<i>Xema sabini</i>	Scarce passage migrant. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1963.
133 Ivory Gull	<i>Pagophila eburnea</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
134 Bonaparte's Gull	<i>Chroicocephalus philadelphia</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
135 Black-headed Gull	<i>Chroicocephalus ridibundus</i>	Abundant passage migrant and winter visitor.
136 Laughing Gull	<i>Leucophaeus atricilla</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
137 Franklin's Gull	<i>Leucophaeus pipixcan</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
138 Mediterranean Gull	<i>Ichthyaetus melanocephalus</i>	Common passage migrant. Former national rarity, not considered by BBRC since 1963.
139 Ring-billed Gull	<i>Larus delawarensis</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1988.
140 Common Gull	<i>Larus canus</i>	Common passage migrant and winter visitor.

English name	Scientific name	Flamborough Headland & National Status
141 Caspian Gull	<i>Larus cachinnans</i>	Regular passage migrant. Former national rarity, not considered by BBRC since 2000.
142 Herring Gull	<i>Larus argentatus</i>	Abundant resident and winter visitor. Breeds every year in large numbers.
143 Yellow-legged Gull	<i>Larus michahellis</i>	Regular passage migrant.
144 Great Black-backed Gull	<i>Larus marinus</i>	Common passage migrant and winter visitor.
145 Glaucous Gull	<i>Larus hyperboreus</i>	Locally rare visitor, mainly in winter.
146 Lesser Black-backed Gull	<i>Larus fuscus</i>	Common passage migrant.
147 Iceland Gull	<i>Larus glaucoides</i>	Locally rare visitor, mainly in winter.
148 Red-throated Diver	<i>Gavia stellata</i>	Common passage migrant and winter visitor.
149 Great Northern Diver	<i>Gavia immer</i>	Regular passage migrant and winter visitor.
150 White-billed Diver	<i>Gavia adamsii</i>	Rare passage migrant. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2009.
151 Black-throated Diver	<i>Gavia arctica</i>	Locally rare passage migrant.
152 Black-browed Albatross	<i>Thalassarche melanophris</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
153 European Storm-petrel	<i>Hydrobates pelagicus</i>	Locally rare visitor.
154 Leach's Storm-petrel	<i>Hydrobates leucorhous</i>	Locally rare visitor.
155 Fulmar	<i>Fulmarus glacialis</i>	Abundant resident and summer visitor. Breeds every year in large numbers.
156 Cory's Shearwater	<i>Calonectris borealis</i>	Scarce passage migrant. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1983.
157 Sooty Shearwater	<i>Ardenna grisea</i>	Regular passage migrant.
158 Great Shearwater	<i>Ardenna gravis</i>	Locally scarce passage migrant.
159 Manx Shearwater	<i>Puffinus puffinus</i>	Common passage migrant.
160 Mediterranean Shearwater	<i>Puffinus yelkouan</i>	Locally scarce passage migrant.
161 Barolo Shearwater	<i>Puffinus baroli</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
162 Soft-plumaged Petrel	<i>Pterodroma mollis</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
163 Black Stork	<i>Ciconia nigra</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
164 White Stork	<i>Ciconia ciconia</i>	Extremely rare. Former national rarity, not considered by BBRC since 1983.
165 Zino's / Cape Verde / Desertas Petrel (group)	<i>Pterodroma madeira/feae/deserta</i>	Extremely rare. National rarity, supporting evidence required by BBRC.

English name	Scientific name	Flamborough Headland & National Status
166 Gannet	<i>Morus bassanus</i>	Abundant resident and summer visitor. Breeds every year in large numbers.
167 Brown Booby	<i>Sula leucogaster</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
168 Shag	<i>Gulosus aristotelis</i>	Common resident. Breeds every year in small numbers.
169 Cormorant	<i>Phalacrocorax carbo</i>	Common resident.
170 Glossy Ibis	<i>Plegadis falcinellus</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Former national rarity, not considered by BBRC since 2013.
171 Spoonbill	<i>Platalea leucorodia</i>	Locally rare visitor.
172 Bittern	<i>Botaurus stellaris</i>	Locally rare visitor.
173 Little Egret	<i>Egretta garzetta</i>	Regular visitor. Former national rarity, not considered by BBRC since 1991.
174 Night-heron	<i>Nycticorax nycticorax</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2002.
175 Great White Egret	<i>Ardea alba</i>	Locally scarce visitor. Former national rarity, not considered by BBRC since 2006.
176 Cattle Egret	<i>Ardea ibis</i>	Extremely rare. Former national rarity, not considered by BBRC since 2009.
177 Purple Heron	<i>Ardea purpurea</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1983.
178 Grey Heron	<i>Ardea cinerea</i>	Common visitor.
179 Nightjar	<i>Caprimulgus europaeus</i>	Locally rare.
180 Alpine Swift	<i>Tachymarptis melba</i>	Rare visitor. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2006.
181 Little Swift	<i>Apus affinis</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
182 Swift	<i>Apus apus</i>	Common passage migrant and summer visitor. Breeds every year in small numbers.
183 Pallid Swift	<i>Apus pallidus</i>	Rare visitor. National rarity, supporting evidence required by BBRC.
184 Barn Owl	<i>Tyto alba</i>	Common resident. Breeds every year in small numbers.

English name	Scientific name	Flamborough Headland & National Status
185 Tengmalm's Owl	<i>Aegolius funereus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
186 Little Owl	<i>Athene noctua</i>	Regular resident. Breeds sporadically, not every year.
187 Short-eared Owl	<i>Asio flammeus</i>	Regular passage migrant.
188 Long-eared Owl	<i>Asio otus</i>	Locally scarce passage migrant.
189 Tawny Owl	<i>Strix aluco</i>	Regular resident. Breeds every year in small numbers.
190 Osprey	<i>Pandion haliaetus</i>	Locally rare passage migrant.
191 Honey-buzzard	<i>Pernis apivorus</i>	Locally rare visitor. Yorkshire rarity, supporting evidence required by YNURC.
192 Sparrowhawk	<i>Accipiter nisus</i>	Common resident. Breeds every year in small numbers.
193 Goshawk	<i>Astur gentilis</i>	Locally rare visitor. Former national rarity, not considered by BBRC since 1963.
194 Pallid Harrier	<i>Circus macrourus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
195 Hen Harrier	<i>Circus cyaneus</i>	Locally scarce visitor.
196 Montagu's Harrier	<i>Circus pygargus</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC.
197 Marsh Harrier	<i>Circus aeruginosus</i>	Regular visitor.
198 Red Kite	<i>Milvus milvus</i>	Regular visitor. Former national rarity, not considered by BBRC since 1963.
199 White-tailed Eagle	<i>Haliaeetus albicilla</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Former national rarity, not considered by BBRC since 1999.
200 Rough-legged Buzzard	<i>Buteo lagopus</i>	Rare visitor. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant.
201 Buzzard	<i>Buteo buteo</i>	Common resident and passage migrant. Breeds every year in small numbers.
202 Hoopoe	<i>Upupa epops</i>	Rare visitor. Nationally scarce, BB scarce migrant.
203 Bee-eater	<i>Merops apiaster</i>	Rare visitor. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1991.
204 Kingfisher	<i>Alcedo atthis</i>	Locally scarce visitor.
205 Wryneck	<i>Jynx torquilla</i>	Scarce passage migrant. Nationally scarce, BB scarce migrant.
206 Green Woodpecker	<i>Picus viridis</i>	Locally rare visitor.
207 Great Spotted Woodpecker	<i>Dendrocopos major</i>	Common resident. Breeds every year in small numbers.

English name	Scientific name	Flamborough Headland & National Status
208 Kestrel	<i>Falco tinnunculus</i>	Common resident. Breeds every year in small numbers.
209 Red-footed Falcon	<i>Falco vespertinus</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2006.
210 Merlin	<i>Falco columbarius</i>	Regular passage migrant.
211 Hobby	<i>Falco subbuteo</i>	Regular passage migrant.
212 Peregrine	<i>Falco peregrinus</i>	Regular resident. Breeds every year in small numbers.
213 Ring-necked Parakeet	<i>Psittacula krameri</i>	Locally rare visitor.
214 Red-eyed Vireo	<i>Vireo olivaceus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
215 Golden Oriole	<i>Oriolus oriolus</i>	Rare passage migrant. Nationally scarce, BB scarce migrant.
216 Great Grey Shrike	<i>Lanius excubitor</i>	Scarce passage migrant. Nationally scarce, BB scarce migrant.
217 Lesser Grey Shrike	<i>Lanius minor</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
218 Woodchat Shrike	<i>Lanius senator</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1991.
219 Red-backed Shrike	<i>Lanius collurio</i>	Scarce passage migrant. Nationally scarce, BB scarce migrant.
220 Turkestan Shrike	<i>Lanius phoenicuroides</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
221 Brown Shrike	<i>Lanius cristatus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
222 Chough	<i>Pyrrhonorax pyrrhonorax</i>	Extremely rare. Has bred in the past but has not done so for many years. Yorkshire rarity, supporting evidence required by YNURC.
223 Jay	<i>Garrulus glandarius</i>	Locally scarce visitor.
224 Magpie	<i>Pica pica</i>	Abundant resident. Breeds every year in moderate numbers.
225 Nutcracker	<i>Nucifraga caryocatactes</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
226 Jackdaw	<i>Coloeus monedula</i>	Abundant resident. Breeds every year in large numbers.
227 Rook	<i>Corvus frugilegus</i>	Common resident. Breeds every year in moderate numbers.

English name	Scientific name	Flamborough Headland & National Status
228 Raven	<i>Corvus corax</i>	Locally rare visitor. Has bred in the past but has not done so for many years.
229 Carrion Crow	<i>Corvus corone</i>	Abundant resident. Breeds every year in moderate numbers.
230 Blue Tit	<i>Cyanistes caeruleus</i>	Abundant resident. Breeds every year in large numbers.
231 Great Tit	<i>Parus major</i>	Abundant resident. Breeds every year in large numbers.
232 Coal Tit	<i>Periparus ater</i>	Common resident. Breeds every year in small numbers.
233 Marsh Tit	<i>Poecile palustris</i>	Locally rare visitor.
234 Willow Tit	<i>Poecile montanus</i>	Locally scarce visitor.
235 Bearded Tit	<i>Panurus biarmicus</i>	Locally rare passage migrant. Former national rarity, not considered by BBRC since 1963.
236 Woodlark	<i>Lullula arborea</i>	Locally rare visitor.
237 Skylark	<i>Alauda arvensis</i>	Abundant resident and passage migrant.
238 Shore Lark	<i>Eremophila alpestris</i>	Locally scarce passage migrant and winter visitor.
239 Short-toed Lark	<i>Calandrella brachydactyla</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1994.
240 Icterine Warbler	<i>Hippolais icterina</i>	Scarce passage migrant. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1963.
241 Melodious Warbler	<i>Hippolais polyglotta</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1963.
242 Booted Warbler	<i>Iduna caligata</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
243 Eastern Olivaceous Warbler	<i>Iduna pallida</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
244 Sedge Warbler	<i>Acrocephalus schoenobaenus</i>	Common passage migrant and summer visitor. Breeds every year in moderate numbers.
245 Aquatic Warbler	<i>Acrocephalus paludicola</i>	Extremely rare. National rarity, supporting evidence required by BBRC; not considered by BBRC 1983-2014.
246 Paddyfield Warbler	<i>Acrocephalus agricola</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
247 Blyth's Reed Warbler	<i>Acrocephalus dumetorum</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2015.

English name	Scientific name	Flamborough Headland & National Status
248 Marsh Warbler	<i>Acrocephalus palustris</i>	Rare passage migrant. Isolated breeding records in the last 50 years. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1963.
249 Reed Warbler	<i>Acrocephalus scirpaceus</i>	Common passage migrant and summer visitor. Breeds every year in moderate numbers.
250 Great Reed Warbler	<i>Acrocephalus arundinaceus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
251 River Warbler	<i>Locustella fluviatilis</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
252 Savi's Warbler	<i>Locustella luscinioides</i>	Extremely rare. National rarity, supporting evidence required by BBRC; not considered by BBRC 1983-1998.
253 Grasshopper Warbler	<i>Locustella naevia</i>	Regular passage migrant and summer visitor. Breeds every year in small numbers.
254 Sand Martin	<i>Riparia riparia</i>	Common passage migrant and summer visitor. Breeds every year in moderate numbers.
255 Crag Martin	<i>Ptyonoprogne rupestris</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
256 Swallow	<i>Hirundo rustica</i>	Common passage migrant and summer visitor. Breeds every year in moderate numbers.
257 House Martin	<i>Delichon urbicum</i>	Common passage migrant and summer visitor. Breeds every year in moderate numbers.
258 Red-rumped Swallow	<i>Cecropis rufula</i>	Rare passage migrant. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2006.
259 Long-tailed Tit	<i>Aegithalos caudatus</i>	Common resident. Breeds every year in small numbers.
260 Cetti's Warbler	<i>Cettia cetti</i>	Locally rare visitor. Former national rarity, not considered by BBRC since 1977.
261 Wood Warbler	<i>Phylloscopus sibilatrix</i>	Locally rare passage migrant.
262 Western Bonelli's Warbler	<i>Phylloscopus bonelli</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
263 Yellow-browed Warbler	<i>Phylloscopus inornatus</i>	Regular passage migrant. Former national rarity, not considered by BBRC since 1963.
264 Hume's Warbler	<i>Phylloscopus humei</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
265 Pallas's Warbler	<i>Phylloscopus proregulus</i>	Rare passage migrant. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1991.

English name	Scientific name	Flamborough Headland & National Status
266 Radde's Warbler	<i>Phylloscopus schwarzi</i>	Rare passage migrant. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2006.
267 Dusky Warbler	<i>Phylloscopus fuscatus</i>	Rare passage migrant. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2006.
268 Willow Warbler	<i>Phylloscopus trochilus</i>	Common passage migrant and summer visitor. Breeds every year in small numbers.
269 Iberian Chiffchaff	<i>Phylloscopus ibericus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
270 Chiffchaff	<i>Phylloscopus collybita</i>	Common passage migrant and summer visitor. Breeds every year in moderate numbers.
271 Eastern Crowned Warbler	<i>Phylloscopus coronatus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
272 Green Warbler	<i>Phylloscopus nitidus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
273 Two-barred Greenish Warbler	<i>Phylloscopus plumbeitarsus</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
274 Greenish Warbler	<i>Phylloscopus trochiloides</i>	Rare passage migrant. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2006.
275 Pale-legged Leaf Warbler	<i>Phylloscopus tenellipes</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
276 Arctic Warbler	<i>Phylloscopus borealis</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2019.
277 Garden Warbler	<i>Sylvia borin</i>	Regular passage migrant. Breeds every year in small numbers.
278 Blackcap	<i>Sylvia atricapilla</i>	Common passage migrant and summer visitor. Breeds every year in moderate numbers.
279 Barred Warbler	<i>Curruca nisoria</i>	Scarce passage migrant. Nationally scarce, BB scarce migrant.
280 Lesser Whitethroat	<i>Curruca curruca</i>	Common passage migrant and summer visitor. Breeds every year in moderate numbers.
281 Asian Desert Warbler	<i>Curruca nana</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
282 Whitethroat	<i>Curruca communis</i>	Common passage migrant and summer visitor. Breeds every year in large numbers.

English name	Scientific name	Flamborough Headland & National Status
283 Sardinian Warbler	<i>Curruca melanocephala</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
284 Western Subalpine Warbler	<i>Curruca iberiae</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
285 Eastern Subalpine Warbler	<i>Curruca cantillans</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
286 Waxwing	<i>Bombycilla garrulus</i>	Locally scarce passage migrant.
287 Firecrest	<i>Regulus ignicapilla</i>	Locally scarce passage migrant. Former national rarity, not considered by BBRC since 1963.
288 Goldcrest	<i>Regulus regulus</i>	Common passage migrant. Breeds every year in small numbers.
289 Nuthatch	<i>Sitta europaea</i>	Regular resident. Breeds every year in small numbers.
290 Treecreeper	<i>Certhia familiaris</i>	Regular resident. Breeds every year in small numbers.
291 Wren	<i>Troglodytes troglodytes</i>	Abundant resident. Breeds every year in large numbers.
292 Starling	<i>Sturnus vulgaris</i>	Abundant passage migrant and winter visitor. Breeds every year in moderate numbers.
293 Rose-coloured Starling	<i>Pastor roseus</i>	Rare passage migrant. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2002.
294 Dipper	<i>Cinclus cinclus</i>	Extremely rare.
295 Mistle Thrush	<i>Turdus viscivorus</i>	Regular resident and passage migrant.
296 Song Thrush	<i>Turdus philomelos</i>	Common resident and passage migrant. Breeds every year in moderate numbers.
297 Redwing	<i>Turdus iliacus</i>	Common passage migrant.
298 Blackbird	<i>Turdus merula</i>	Abundant resident and passage migrant. Breeds every year in large numbers.
299 Fieldfare	<i>Turdus pilaris</i>	Common passage migrant.
300 Ring Ouzel	<i>Turdus torquatus</i>	Regular passage migrant.
301 Black-throated Thrush	<i>Turdus atrogularis</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
302 Rufous-tailed Scrub Robin	<i>Cercotrichas galactotes</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
303 Asian Brown Flycatcher	<i>Muscicapa dauurica</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
304 Spotted Flycatcher	<i>Muscicapa striata</i>	Regular passage migrant.
305 Robin	<i>Erithacus rubecula</i>	Abundant resident and passage migrant. Breeds every year in large numbers.

English name	Scientific name	Flamborough Headland & National Status
306 Thrush Nightingale	<i>Luscinia luscinia</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
307 Nightingale	<i>Luscinia megarhynchos</i>	Extremely rare.
308 Bluethroat	<i>Luscinia svecica</i>	Scarce passage migrant. Nationally scarce, BB scarce migrant.
309 Red-breasted Flycatcher	<i>Ficedula parva</i>	Scarce passage migrant. Nationally scarce, BB scarce migrant.
310 Taiga Flycatcher	<i>Ficedula albicilla</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
311 Pied Flycatcher	<i>Ficedula hypoleuca</i>	Regular passage migrant.
312 Red-flanked Bluetail	<i>Tarsiger cyanurus</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2017.
313 Black Redstart	<i>Phoenicurus ochruros</i>	Regular passage migrant.
314 Redstart	<i>Phoenicurus phoenicurus</i>	Regular passage migrant.
315 Whinchat	<i>Saxicola rubetra</i>	Regular passage migrant.
316 Siberian Stonechat	<i>Saxicola maurus</i>	Rare passage migrant. National rarity, supporting evidence required by BBRC.
317 Stonechat	<i>Saxicola rubicola</i>	Regular resident and passage migrant. Breeds every year in small numbers.
318 Desert Wheatear	<i>Oenanthe deserti</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
319 Pied Wheatear	<i>Oenanthe pleschanka</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
320 Wheatear	<i>Oenanthe oenanthe</i>	Common passage migrant.
321 Dunnock	<i>Prunella modularis</i>	Abundant resident. Breeds every year in large numbers.
322 Tree Sparrow	<i>Passer montanus</i>	Abundant resident. Breeds every year in large numbers.
323 House Sparrow	<i>Passer domesticus</i>	Abundant resident. Breeds every year in large numbers.
324 Grey Wagtail	<i>Motacilla cinerea</i>	Regular passage migrant and winter visitor.
325 Yellow Wagtail	<i>Motacilla flava</i>	Regular passage migrant. Breeds every year in small numbers.
326 Citrine Wagtail	<i>Motacilla citreola</i>	Extremely rare. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2015.
327 Pied Wagtail	<i>Motacilla alba</i>	Common resident and passage migrant. Breeds every year in moderate numbers.

English name	Scientific name	Flamborough Headland & National Status
328 Tawny Pipit	<i>Anthus campestris</i>	Extremely rare. National rarity, supporting evidence required by BBRC; not considered by BBRC 1983-2014.
329 Richard's Pipit	<i>Anthus richardi</i>	Rare passage migrant. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1983.
330 Tree Pipit	<i>Anthus trivialis</i>	Regular passage migrant.
331 Olive-backed Pipit	<i>Anthus hodgsoni</i>	Rare passage migrant. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 2013.
332 Red-throated Pipit	<i>Anthus cervinus</i>	Extremely rare. National rarity, supporting evidence required by BBRC; not considered by BBRC 2006-2014.
333 Meadow Pipit	<i>Anthus pratensis</i>	Abundant passage migrant. Breeds every year in large numbers.
334 Rock Pipit	<i>Anthus petrosus</i>	Common resident and winter visitor. Breeds every year in moderate numbers.
335 Water Pipit	<i>Anthus spinoletta</i>	Extremely rare.
336 Brambling	<i>Fringilla montifringilla</i>	Regular passage migrant.
337 Chaffinch	<i>Fringilla coelebs</i>	Abundant resident and passage migrant. Breeds every year in large numbers.
338 Hawfinch	<i>Coccothraustes coccothraustes</i>	Locally scarce passage migrant.
339 Common Rosefinch	<i>Carpodacus erythrinus</i>	Rare passage migrant. Isolated breeding records in the last 50 years. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1983.
340 Bullfinch	<i>Pyrrhula pyrrhula</i>	Common resident.
341 Greenfinch	<i>Chloris chloris</i>	Common resident. Breeds every year in moderate numbers.
342 Twite	<i>Linaria flavirostris</i>	Locally scarce passage migrant and winter visitor.
343 Linnet	<i>Linaria cannabina</i>	Common resident and passage migrant. Breeds every year in large numbers.
344 Redpoll	<i>Acanthis flammea</i>	Regular passage migrant.
345 Two-barred Crossbill	<i>Loxia leucoptera</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
346 Crossbill	<i>Loxia curvirostra</i>	Locally scarce passage migrant.
347 Goldfinch	<i>Carduelis carduelis</i>	Common resident. Breeds every year in large numbers.
348 Serin	<i>Serinus serinus</i>	Rare. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1983.
349 Siskin	<i>Spinus spinus</i>	Regular passage migrant.
350 Snow Bunting	<i>Plectrophenax nivalis</i>	Regular passage migrant and winter visitor.
351 Lapland Bunting	<i>Calcarius lapponicus</i>	Regular passage migrant and winter visitor.
352 Reed Bunting	<i>Emberiza schoeniclus</i>	Common resident. Breeds every year in moderate numbers.

English name	Scientific name	Flamborough Headland & National Status
353 Yellow-breasted Bunting	<i>Emberiza aureola</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
354 Little Bunting	<i>Emberiza pusilla</i>	Scarce passage migrant. Nationally scarce, BB scarce migrant. Former national rarity, not considered by BBRC since 1994.
355 Rustic Bunting	<i>Emberiza rustica</i>	Extremely rare. National rarity, supporting evidence required by BBRC; not considered by BBRC 2006-2014.
356 Black-faced Bunting	<i>Emberiza spodocephala</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
357 Black-headed Bunting	<i>Emberiza melanocephala</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
358 Red-headed Bunting	<i>Emberiza bruniceps</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
359 Corn Bunting	<i>Emberiza calandra</i>	Regular resident. Breeds every year in small numbers.
360 Ortolan Bunting	<i>Emberiza hortulana</i>	Rare passage migrant. Yorkshire rarity, supporting evidence required by YNURC. Nationally scarce, BB scarce migrant.
361 Pine Bunting	<i>Emberiza leucocephalos</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
362 Yellowhammer	<i>Emberiza citrinella</i>	Common resident. Breeds every year in large numbers.
363 White-throated Sparrow	<i>Zonotrichia albicollis</i>	Extremely rare. National rarity, supporting evidence required by BBRC.
364 Blackpoll Warbler	<i>Setophaga striata</i>	Extremely rare. National rarity, supporting evidence required by BBRC.

Pending Consideration

At the time of publication the potential new species to the Confirmed List listed below are either under consideration by BBRC or are waiting for a submission to be made. These records will result in an addition to the Confirmed List once they have been accepted by the relevant authorities.

English name	Scientific name	BBRC Record Status
White-throated Needletail	<i>Hirundapus caudacutus</i>	In circulation with BBRC
Pacific Golden Plover	<i>Pluvialis fulva</i>	In circulation with BBRC
Pied Crow	<i>Corvus albus</i>	In circulation with BBRC / BOURC
Alpine Accentor	<i>Prunella collaris</i>	In circulation with BBRC
Song Sparrow	<i>Melospiza melodia</i>	In circulation with BBRC
